

mr. powell.....PLEASE be reasonable...lets cut right to the chase...the media is already so incredibly biased to the right wing element in this country that it threatens the very pillars of our fading democracy...your decision could be the pivotal one historically in the struggle to keep america a free and open society...i dont mean to get too dramatic...but i dont believe im not too far afield with my assessment.....for heavens sake do the right thing and stop this monopolizing of the airwaves!!!!!!
